How **IPMB.io** uses cookies

When you use the Website and access the Services, we may place a number of cookies files in your web browser. We use cookies for the following purposes: to enable certain functions of the Service, to provide analytics, to store your preferences, to enable advertisements delivery, including behavioral advertising. We use both session and persistent cookies on the Service and we use different types of cookies to run the Service. We may use essential cookies to authenticate users and prevent fraudulent use of user accounts.

We set out how and why we use cookies in more detail below:

The cookies we use or might use are categorized as follows:

- **Essential cookies**
- **Performance and analytics cookies**
- **Functionality cookies**
- **Targeting/Advertising cookies**

Essential cookies. These are cookies that are required for the operation of our Website. These cookies help you to move around and use all the essential features of the Website. Without these cookies, the Website would not work properly.

Analytical or performance cookies. We want to make your experience on the Website as smooth and as enjoyable as possible. These allow us to recognise and count the number of visitors and to see how visitors move around the Website when they are using it. This helps us to improve the way the Website works, for example, by ensuring that users are finding what they are looking for easily.

Functionality cookies. These are used to recognize you when you return to our Website. This enables us to personalize our content for you, greet you by name and remember your preferences (for example, your choice of language or region).

Some functionality cookies are essential if you want to view or visit certain parts of the Website.

Targeting and advertising cookies. These cookies record your visit to the Website, the pages you have visited and the links you have followed. We will use this information to make the Website and the advertising displayed on it more relevant to your interests. These cookies help ensure that the advertisements you see are as relevant to you as possible. For example, some advertising cookies help select advertisements that are based on your interests. Others help prevent the same advertisement from continuously reappearing for you.

Please note that third parties (including, for example, advertising networks and providers of external services like web traffic analysis services) may also use cookies, over which we have no control. These cookies are likely to be analytical/performance cookies or targeting cookies.

Duration of Cookies

Except for essential cookies, all cookies will expire after approximately 90 Days.
