About

Network Name

New RPC URL

Chain ID ⓘ

Currency Symbol

Block Explorer URL (Optional)

Cancel Save

On the wallet, tap on Network, select 'Add Network' and add the details below:

- Network Name: **Smart Chain**
- New RPC URL: **https://bsc-dataseed.binance.org/**
- ChainID: **56**
- Symbol: **BNB**
- Block Explorer URL: **https://bscscan.com**

Now that you have successfully added the Smart Chain Network to your MetaMask, the next step is to add the IPMB token to your wallet.

After choosing or adding the Smart Chain network, scroll down to the bottom. There you will be able to see 'Refresh list' and 'Import Tokens'. Click 'Import Tokens'.

1. If you are on the Custom Token tab, stay there.
2. In case you are on the Search Tab, click on Custom Token.
3. Once you are in the Custom Token, you need to paste the IPMB token's contract address:

```
0xF4634AA2dF0f733a3Cc7033aD75b4Ea1Bb93f1a3
```

After pasting the IPMB contract address, The IPMB Token Symbol and Token Decimal will be generated automatically. Click Import to finalise adding the IPMB Token to your MetaMask wallet.

Add Custom Token

The screenshot shows the Metamask wallet interface. At the top, it says 'METAMASK' with a logo on the left and 'Smart Chain' with a dropdown arrow and a globe icon on the right. Below this is a header for 'FlappyBird' with the address '0x2a6...1DbF' and a three-dot menu icon. The main content area displays '0 BNB' with the BNB logo and three action buttons: 'Buy', 'Send', and 'Swap'. Below this, there are two tabs: 'Assets' (selected) and 'Activity'. The 'Assets' tab shows a list of tokens: '0 BNB' with the BNB logo and a right arrow, and '0 IPMB' with the IPMB logo and a right arrow. At the bottom, there is a message 'Don't see your token?' with a link 'Import tokens'.
