

ADD IPMB TO YOUR **TRUSTWALLET**

Trust Wallet

No assets found

Add custom Token

Go to the wallet.

1. Tap on the add token button at the bottom.
2. Then tap the + sign located at the top right corner.
3. Toggle sign on the upper right corner of the main wallet screen.

You are now at the "**Add custom token**" page.

On the network, make sure that you have selected the correct network. Select "smart chain" on the supported network.

After pasting or scanning the IPMB contract address, other details like the name, symbol and decimals will be automatically filled up. Tap on save to continue.
